with its representation rules. Purchases or orders free from any objections shall not mean that the Ordering Party has acknowledged the different provisions. Whenever orders are referred to in these General Terms and Conditions, they shall be understood as an agreement concluded on the basis of applicable legal regulations, in particular the Civil Code.

1.3 Whenever materials are referred to in these General Terms and Conditions, they shall be understood as machines, equipment, tools, spare parts or any other items not listed earlier, which are the sole subject of the order or an element thereof.

1.4 The Supplier/Contractor guarantees that the subject of the order shall be completed by the date specified in the order or set by the Ordering Party.

1.5 Subject to clause 2.3, if the sole subject of the order is delivery or purchase of material, the order shall be considered to be fulfilled upon the Ordering Party's receipt of the material that is the subject of such order at a place defined by the Ordering Party. In other cases, the date of delivery of the order – subject to clause 2.3 – shall be considered the date, when the authorised representatives of both parties sign a report on the final receipt of the subject of the order without any comments.

1.6 If the sole subject of the order is delivery or pur-

For purchases made outside Poland, together with the material, the Supplier/Contractor shall be obliged to deliver the document that allows applying the preferential or reduced customs duties.

2.3 The order shall be deemed to have been completed at the time of delivery of the subject of the order and all documents listed in clauses 2.1 and 2.2 or specified in the order.

III. INVOICES

3.1 For orders, the subject of which are items other than only delivery or purchase, such as e.g. installation, start-up, the basis to issue the VAT invoice by the Supplier/Contractor for order completion, shall be the final acceptance report referred to in clause 5, and a written declaration of possible subcontractors that there are no unsettled payments for works subcontracted by the Supplier/Contractor.

IV. SUBCONTRACTING

4.1 The Supplier/Contractor may subcontract the work connected with the order using subcontractors and/or other persons acting on its behalf, with the prior written, otherwise null and void, consent of the Ordering Party. The consent to employ the subcontractors shall not affect the liability of the Supplier/Contractor for performance of the order using third parties. The Supplier/Contractor shall be liable for the acts or omissions of its subcontractors as for its own acts or omissions.

4.2 The Supplier/Contractor shall be fully liable for the damage caused by its subcontractors during the completion of the order.

4.3 If the Ordering Party makes payment directly to a subcontractor, the Ordering Party shall have the right to claim from the Supplier/Contractor the full amount (recourse) paid by it for work performed by the subcontractors.

V. QUALITY, SAFETY, ENVIRONMENT

5.1 The Supplier/Contractor guarantees that the subject of the order does not pose a hazard to safety, health and the environment.

5.2 All the components/parts used to make the subject of the order must have the quality certificates, permits, declarations of conformity (certificate, tech-

nical approval, material quality certificates) required by the applicable regulations and standards, and they must be new and fully operational.

5.3 The Supplier/Contractor shall be liable for the quality of the materials delivered, the work performed and, if applicable, for the compliance of the performance with the design documentation, the recommendations of the technical and design author's supervision, with the applicable technical conditions for the performance of the work, including installation and construction work.

5.4 If the subject of the order is preparation of documentation or a design, the Supplier/Contractor shall be fully liable for any errors in the documentation or the design, in particular those causing the necessity to perform any additional works. In particular, the Supplier/Contractor shall be charged with the costs of performing these additional works, such costs calculated on the basis of the invoices for their performance, increased by additional costs of 15% of the value of these works - as the cost of organizing the additional works directly by the Ordering Party.

5.5 The Ordering Party reserves the right to verify the received/completed subject of the order (in particular its quality and quantity), in particular for its compliance with the order, specification and/or the quality certificate of the Supplier/Contractor.

5.6 If the subject of the order is only the delivery or purchase of material, and the result of the verification (in particular the quality and quantity verification) of the material as performed by the Ordering Party, shows any non-conformity of the material with the order, specification or quality certificate of the Supplier/Contractor, the Ordering Party shall inform the Supplier/Contractor, within 30 days from the date of receipt of the material (and in the case of latent defects - within 30 days from the discovery of the defect) of this fact by fax or e-mail or a letter sent by registered mail or courier.

5.7 The Supplier/Contractor guarantees that the subject of the order shall be performed (including, if applicable, delivered/assembled/installed) in accordance with the applicable Polish regulations, including OH&S and fire safety, and UDT/PED/TDT/ATEX regulations and standards in force in the European Union.

5.8 If the subject of the order is, inter alia, or only, the work carried out on the premises of the Ordering Party:

a) The Supplier/Contractor shall be liable for the safety of the work performed, and in particular for the safe conditions of driving and movement for the vehicles, employees and third parties present within the area

of the works, in accordance with the regulations and procedures currently existing in this respect on Ordering Party's premises.

b) The Supplier/Contractor, and any potential subcontractors, shall be obliged to read and understand the OH&S and fire-fighting regulations and procedures currently existing on the Ordering Party's premises, as available at: https://www.pcc.rokita.pl/bazy/www.nsf/id/PL_Bezpieczenstwo, including the knowledge compendium: https://www.pcc.rokita.pl/bazy/www.nsf/id/PL_Bezpieczenstwo_Kompendium_bhp

These persons must undergo the workplace safety training. The enrolment should be submitted to the Ordering Party's representative indicated in the order.

c) The Supplier/Contractor shall be obliged to keep proper order on Ordering Party's premises during the work performance.

5.9 The Supplier/Contractor hereby warrants and guarantees that no applicable patents or other industrial property rights, copyrights and other related rights or know-how of third parties exist that could be infringed by the Ordering Party due to the use or disposal of the acquired subject of the order.

5.10 If applicable, the intellectual property rights to the subject of the order are specified in Appendix 1 to the order.

5.11 The producer of the waste generated during the work carried out in order to perform the subject of the order shall be the Ordering Party, unless the detailed terms of the order provide otherwise. The Supplier/Contractor shall be obliged to transport and collect the waste selectively at the place designated by the Ordering Party. However, the post-materials and post-substances waste used by the Supplier/Contractor in the course of work, and asbestos waste, shall be an exception. The producer of this waste shall be always the Supplier/Contractor. If the Supplier/Contractor is the waste producer, then the Supplier/Contractor shall be obliged to obtain the Ordering Party's consent for waste disposal prior to its removal from the Ordering Party's premises, and shall be obliged to provide the Ordering Party with the copy of the controlled waste transfer note (WTN), in which a waste management company has confirmed acceptance of such waste, within 3 days from the date of this waste removal from the PCC premises. If the Supplier/Contractor fa-

ils to provide WTN on time, the Ordering Party shall have the right to withhold payment of remuneration for works performed on the basis of the order. Until WTN is provided, this period shall not be treated as a delay in performance of the payment obligation by the Ordering Party.

VI. WARRANTIES AND GUARANTEES

6.1 The Supplier/Contractor shall provide the warranty on the subject of the order for the period set in the order. If the warranty period is longer than two years, the parties shall extend the period for Ordering Party's claims under the statutory warranty for the duration of the warranty given by the Supplier/Contractor. The Ordering Party may exercise its statutory warranty rights regardless of the Supplier/Contractor's warranty rights. The period of the Supplier/Contractor's warranty and the statutory warranty shall start from the date of order completion in accordance with clause 5 above.

6.2 The Supplier/Contractor warrants and guarantees that the subject of the order meets the requirements specified in the Ordering Party's order, is free from any defects which would reduce its value or usefulness with respect to the purpose arising from the order or the purpose of the subject of the order.

6.3 The Supplier/Contractor warrants and guarantees that all elements/parts delivered to the Ordering Party in the course of the order performance are new, unused, manufactured in compliance with the latest technological progress achievements and meet the highest standards of quality, safety and environmental protection applicable to the materials and workmanship, unless the order requires otherwise. The Supplier/Contractor further warrants and guarantees that the subject of the order shall be free from defects, including defects in materials, construction, legal defects, defects resulting from the quality of workmanship and other failures, and therefore shall allow to achieve the technical parameters specified by the manufacturer, as well as those arising from the technical documentation (if applicable) and its purpose.

6.4 The Supplier/Contractor warrants and guarantees that no asbestos or other substances hazardous to the environment, health or safety shall be used to complete the order.

6.5 Under the warranty, the Ordering Party shall have the right, at its own discretion, to require repair of the defect or delivery of the subject of the order or a part thereof free from defects, or to require a reduction in or return of the purchase price, or to require a supplementary delivery or provision of other services.

6.6 If the Supplier/Contractor fails to proceed on with the performance of its obligations arising from the warranty and/or statutory warranty within 3 working days from the Ordering Party's notice about the defect/warranty claim (by fax, e-mail, registered letter or courier), and fails to perform them in the shortest time possible, the Ordering Party shall be authorized to exercise the warranty rights at the expense and risk of the Supplier/Contractor, without the obligation to obtain the court's consent to do so. In this situation, the Ordering Party shall not lose any warranty or statutory warranty rights; provided, however, that the Ordering Party shall be obliged to inform the Supplier/Contractor in advance about the repair being undertaken by the Ordering Party or commissioned to third parties. Unless otherwise agreed, the Parties agree that the period for defect repair shall be 14 days from the date of defect notice.

6.7 If, in the course of performing its obligations under the warranty, the Supplier/Contractor made essential changes to the subject of the order, or made a new subject of the order instead of the defective one, the warranty period shall run anew from the time of repair or performance of the new subject of the order. In other cases, the warranty period shall be extended by the time when the Ordering Party was unable to use the subject of the order due to the defect.

VI.8 To the extent not provided for in these General Terms and Conditions, the provisions of the Polish Civil Code concerning the sales warranties shall apply, and other applicable legal regulations.

VII. CONFIDENTIALITY

7.1 Any commercial and technical information obtained by the Supplier/Contractor in connection with the order completion, the Supplier/Contractor shall be obliged to treat as confidential, i.e. not to be disclosed to third parties without the prior written consent of the Ordering Party or used for any purpose other than the performance of the order. The obligation of confidentiality shall survive the completion of the order. If the Supplier/Contractor infringes the obligation of confidentiality, the Ordering Party reserves the right to withdraw from the order, by fault of the Supplier/Contractor, within 3 months of receiving the information about the infringement.

7.2 The Supplier/Contractor acknowledges that the Ordering Party is a company of PCC Capital Group. The Supplier/Contractor acknowledges that PCC Rokita S.A. and PCC EXOL S.A., as issuers of securities admitted to trading on the Warsaw Stock Exchange,

VIII. CONTRACTUAL PENALTIES

8.1 The Supplier/Contractor shall pay the Ordering Party a contractual penalty for withdrawal from the agreement, the conclusion of which was effected by the Supplier/Contractor's acceptance of the order, by any of the parties for reasons attributable to the Supplier/Contractor, as well as in the case of withdrawal from this agreement by the Supplier/Contractor for reasons beyond the control of the Ordering Party - in the amount of 20% of the net value of the order.
